Relyon master bed maker since 1858. A leading UK bed manufacturer.

Beginning life as a wool merchant and originally named by the founding Price family as Price Brothers and Co., the business evolved rapidly into manufacturing beds. Then in 1935 the name was changed to Relyon as the goal was to design beds that you could truly “rely on” for a good night’s sleep.

Relyon is one of the oldest bed manufacturers with vast experience of how to make the highest quality pocket-sprung hand-crafted beds. All of Relyon’s mattresses are handmade using time-honoured skills that have been passed on and improved upon generation after generation. Relyon’s craftsmen train for many years in order to perfect their skills in producing the best beds in the world. Relyon continually re-invest by training and purchasing the best machines to enable the craftsmen to manufacture products more efficiently and to the company’s exacting standards.

Over the last 167 years Relyon has gone from strength to strength. The heart of the business and the manufacturing headquarters remain in Wellington, Somerset, with a workforce of nearly 170 employees. Today Relyon is a brand name synonymous with the very highest standards of product design and manufacturing quality and is recognised as one of the leading UK bed manufacturers. Relyon boasts a nationwide delivery operation as well as some international stockists too.

Our philosophy is still the same today:
comfort and service is our paramount priority.
You can rely on Relyon.

A sleep experience that will have your guests agreeing that **Relyon** really do make *the best beds in the world.*

Our Boutique Bed Collection is designed to deliver an unparalleled sleeping experience, ensuring your guests enjoy a restful and rejuvenating night's sleep.

Not only supremely comfortable and stylish, but our beds are also made to meet functionality, practicality and enduring quality standards essential for the modern-day hotelier.

We understand that every hotel has its own unique vision which is why each of our beds can be tailored to your specification.

Choose your level of firmness, base and storage options to pair with one of our sophisticated headboard designs, all offered in a range of fashionable fabric colours creating the perfect aesthetic to welcome your guests.

Contract Ortho

Contract Support

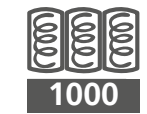

Contract Luxury

All our contract beds are fully compliant with British contracts fire retardancy regulations BS 7177 medium hazard (up to Crib 5).

Contract Ortho

The Contract Ortho provides superb levels of comfort and support with the convenience of being non turn and easy care as it only needs to be rotated. Featuring Edge+ for enhanced durability, this helps maintain the shape and integrity of the mattress over time.

Mattress: Contract Luxury. Base: Padded top divan on legs. Headboard : 2 x Consort full height.

Zip & link sleep solutions

Relyon Contract zip and link beds allow you to provide flexibility and maximise room occupancy when two beds are required rather than one.

Super king and king size beds can be split into two single beds. The bases are linked at both the ends with metal linking bars and the mattresses zipped together along their full length.

Splitting the zip and link beds into two single beds also makes access easier for housekeeping; cleaning, vacuuming or turning and rotating the mattress.

Housekeeping and care advice

Mattress care

The Relyon Contract mattresses are upholstered with layers of comfortable fillings which tend to 'settle' naturally. This settlement will be more noticeable in areas under the most body weight. This is quite normal and should not cause concern. In order to extend the life of the mattress and provide your guests with the most comfortable sleep as possible the mattress labels have a 'housekeeping instructions' box in the top right hand corner which states the care instructions. These housekeeping instructions advise whether the mattress needs rotating and/or turning and the dates in the month that it is required.

Beds are large and heavy pieces of furniture please refer to current Health and Safety employment conditions and legislation to ensure that enough people help to move beds when required.

<p>Housekeeping Instructions: Turn this mattress regularly on 1st and 15th of each month</p>  <p>Rotate the Mattress Contract Ortho and Contract Support are easy care, no turn mattresses so only need rotating.</p>	<p>Housekeeping Instructions: Turn this mattress regularly on 1st and 15th of each month</p>  <p>Flip Over & Rotate the Completely Mattress Contract Luxury is a turnable mattress, both sides of the mattress can be used. Therefore it will need to be flipped over completely as well as rotated regularly.</p>
---	---

Divan options

Relyon offers two different divan options to couple with the Contract mattresses. All Contract divans are solid timber sided for additional strength and durability.

All divans come with a 10 year guarantee.

All divans available in the below standard sizes:

90 x 190cm
135 x 190cm
150 x 200cm
180 x 200cm
2 x 75 x 200cm
2 x 90 x 200cm

Special sizes also available on request.

The legs and castors on all Relyon Contract divans are secured into hardwood corner blocks for maximum strength. The standard padded top divan bases are fitted with stylish silver castors which provides the practical option for easy moving compared to the padded top on legs which we recommend to be lifted and not dragged. We recommend lifting headboards and padded top divan on legs to avoid unnecessary damage that dragging can cause.

On a carpeted floor legs and castors tend to become embedded and grip to the depression they create. We also recommend that legs and castors are periodically checked to make sure that remain fully secured in the corner blocks.

Key features

- ✓ Extra cross bars in the divan base to increase strength and support for the weight of the mattress and person(s)
- ✓ Crib 5 fire retardant bottom sheet

Padded top divan | featuring silver castors

Height = 41.5cm

Padded top divans provide a firmer feel.
Drawer options upgrades available with this base.

- ✓ High quality timber frame with deeper top rail bars for exceptional strength and rigidity
- ✓ Fire retardant upholstery fabrics

Padded top divan on legs | featuring beech legs

Height = 35cm

The padded top divan base on legs provides a firmer feel with a lower overall height. The solid beech tapered legs lift the low profile box base up from the floor for a stylish look.

Leg height only: 19cm

All drawers are assembled from solid hardwood components, using dovetail joints for strength, and feature smooth operation ball bearing drawer runners.

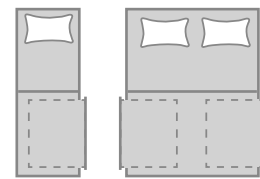

If you select a divan with drawers please consider if your room has enough space to be able to open them: divans with drawers will need at least 40cm surrounding space from the side of the bed to enable you to pull the drawers out.

Drawer options

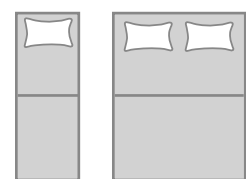

To allow you to add valuable storage to your room Relyon offers two different drawer options on the padded top divan. If you do not require a divan with drawers we also offer non storage options.

2 Large drawer set

Single Double and above

Non storage

Single Double and above

Drawers for 90 x 190cm divans are available in left or right hand opening to suit the layout of your room. Please inform your retailer which you would like when ordering.

Divan drawer specifications	Width	Length	Height for internal storage	Storage weight limit
Large timber drawers with dovetail joints	78.3cm	52.5cm	15cm	25kg

Adding valuable storage space...
Drawer option upgrades available on padded top divans.

Headboards

A headboard is the all-important finishing touch that adds flair and interest to your guest rooms.

All Relyon Contract headboard designs are available in full height. There are two designs to choose from for a smart and stylish overall look.

All headboards come with a 10 year guarantee.

Contract headboards are upholstered with fire retardant fabrics to meet the regulations for commercial use.

Consort

2 rows of buttons and a striking design finished in a square panel effect.

Height - 135cm
Width - same as mattress/divan
Depth - 8cm

Modern

Simple and modern in an upholstered padded finish.

Height - 135cm
Width - same as mattress/divan
Depth - 7.5cm

Fabric options

Mattress fabric:

Every Relyon Contract mattress is finished in a luxurious and breathable Belgian damask with interwoven Relyon Contract branding.

Accreditation & Certification

Relyon are NBF Approved Members which means you can buy Relyon products in confidence, safe in the knowledge that what you buy is safe, clean and honest. To achieve the NBF Approved Member status Relyon are independently audited against the NBF's strict Code of Practice criteria, which cover three areas: flammability, health and hygiene, and trade descriptions.

Quality without compromise

Relyon hold ISO 9001 certification which means we manufacture each bed to the requirements of the Furniture Industry Research Association (FIRA) for non-domestic beds.

Environmentally sound sleep

Since 2022 we have been ISO 14001 certified, this environmental standard demonstrates our ongoing commitment to reducing waste management and protecting the environment. We prioritise reducing, re-using and recycling all materials within our production processes and are proud to operate a zero waste to landfill policy.

Through product testing, quality control and correct material processing the product offered by Relyon has an allocated **10 year guarantee** from date of purchase.

Handcrafted
in Somerset
since **1858**.

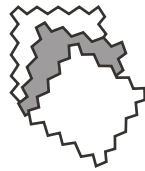

Relyon Beds were the first UK Bed Manufacturer to be awarded Fira Gold Certification for our Boutique Contract Bed Collection.

This demanding product testing regime for contract beds is the ultimate mark of excellence within the furniture industry.

Today, we continue to manufacture our Boutique Contract Bed Collection to exactly the same professional standards which are aimed at providing our customers with the knowledge and reassurance that these beds are still made to the highest standards in terms of comfort, quality and reliability.

The FIRA Gold Product Certification for mattresses and beds for use in non-domestic settings includes tests for structural performance, strength, safety and stability, mattress performance, the performance of textiles and other material, flammability performance and finally an ergonomic assessment. The certification also looks at the overall workmanship and the quality of assembly instructions and procedures.

All Relyon Contract products have passed the structural, fabric performance, flammability mattress performance and ergonomics tests below

Fabric performance tests BS EN 14976: 2005

All Relyon Contract fabrics are suitable in respect of colour fastness to light, colour fastness to rubbing, colour fastness to acid and alkaline perspiration, tensile strength, seam slippage and tear strength for use.

Flammability tests BS 7177 Medium hazard

All Relyon Contract divan sets comply with the Government legislation and Fire Department requirements. U.K Fire regulations and safety standards are amongst the highest in the world. This award provides a solid reassurance that Relyon contract divans have received the British Standard BS 7177 (Ignition Source 5) certificate which involves passing a very severe fire testing procedure, with each mattress being tested for cigarette, match flame and crib 5 before certifications are granted.

Ergonomic Assessments

Hips and shoulders can be the cause of 'pressure hot spots'. Relyon Contract mattresses are designed to work with the body's contours to reduce pressure on these hot spots and therefore encourage deeper and more therapeutic sleep.
