

For over 165 years Relyon has been making the finest quality handmade beds from the very heart of the West Country.

This is why we are honoured to uphold our traditional customs by now including fully traceable West Country wool into our Peerless and Heritage mattress collections.

Generations of dedicated West Country farmers creating the finest wool, combined with the time honoured skills of our master craftsmen to create the best beds in the world.

Ethical, sustainable and supremely comfortable West Country wool adds even more luxury and heritage to an already outstanding legacy; woven with care and steeped in long-standing tradition.
